

Teach Better

A Short Story

Today's Presentation

- What is an LMS?
- History
- Why use an LMS
- How to use
- Questions

What is a learning management system?

Do we really need them?

A Software
Application
than can
be used for

Administration

Documentation

Reporting

Tracking

Automation

Delivery

A 1991 Product EKKO

The first fully-featured Learning Management System (LMS) was called EKKO, developed and released by Norway's NKI Distance Education Network in 1991

Why use an LMS?

Self Paced Learning

Dynamic content

Track results

Continuous learning

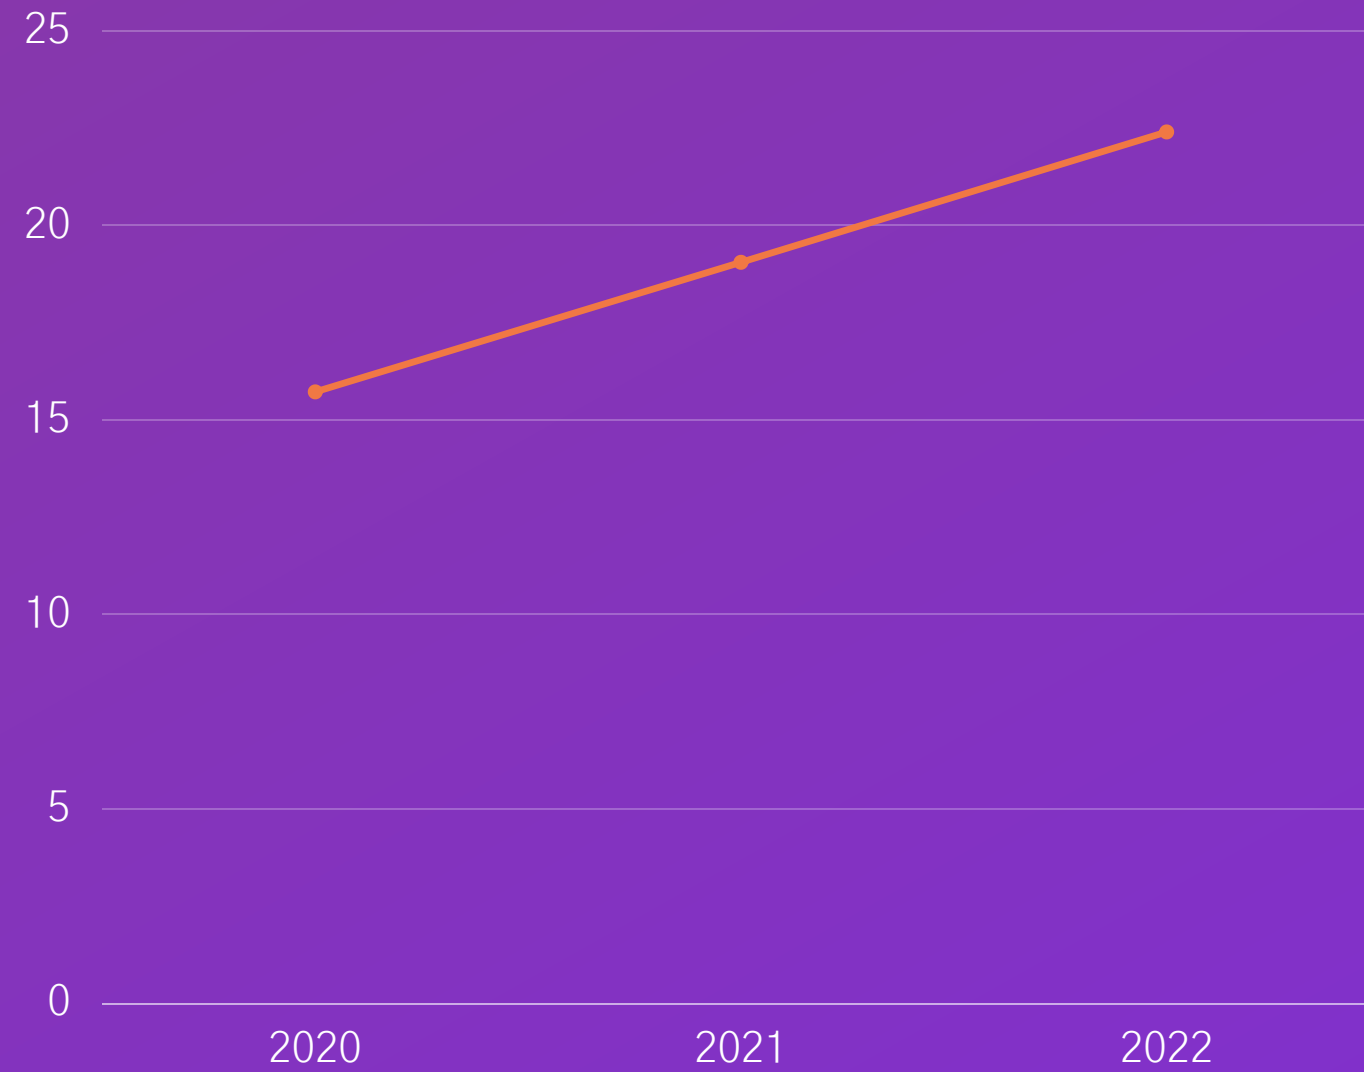

Remote Deliverability

Engage and motivate

Automate

Community

Rise of LMS in \$B

Mobile Friendly

Curriculum & Assignments

- Create an overview of the course.
- Split your course into chapters and lessons.
- Map Skills
- Create assignments to measure learning

Coach Students

Focus on creating real learning outcomes for students. Coach your students through an intensive 'Learn by Doing' process to achieve outcomes.

Give Targeted Feedback

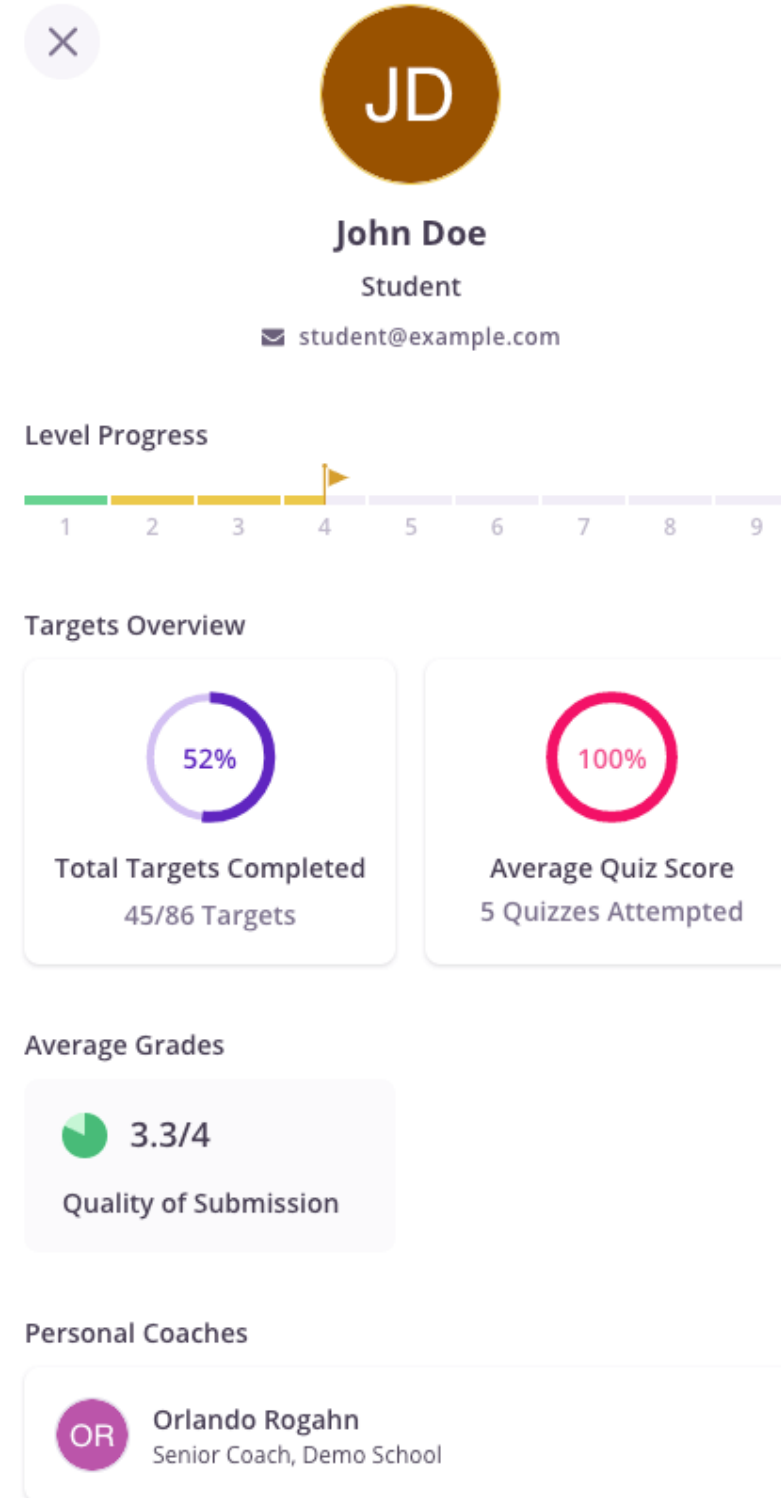

You are an expert in your domain. LMS enables you to quickly and efficiently review the quality of task submissions by students, share feedback and create a conversation around what students have learned.

Monitor Progress

- Filter students based on progress
- Assess performance
- Add personal notes and monitor each students

Notes Submissions

Add a New Note

Rich text editor with formatting options (B, I, U), view icons, and a file attachment button.

Click here to attach a file. Need help?
